ACIDITY	0.6 g/100ml
PH	3.86
ALCOHOL	13.2%
BOTTLED	August 4, 2018
PRODUCTION	145 cases
PRICE	\$65

WINEMAKERS NOTES

If any clone of Pinot Noir embraces the long histories of both Californian and Burgundian wine growing, it's the Mount Eden clone. This particular Pinot Noir clone was reportedly brought across the Atlantic Ocean from one of Louis Latour's Burgundian vineyards in the late 1800's, and is therefore one of the oldest clones in California. This combination of new and old worlds relates on a micro-level at Riverbench Vineyard as well. A newer planting from 2015, this first vintage of Mount Eden clone Pinot Noir varies a bit from the wines made from our older vines; unique flavors of blueberries and leather are more pronounced. The wine is full of elegance and finesse, with beautiful structure and succinct flavors. This wine will be glorious with a few years of bottle age, and is a lovely pairing now with crispy duck or Delmonico steak.

2017 HARVEST

The 2017 growing season proved to be a continuation of another drought year. The winter brought some needed rainfall, early bud break and spring frost coupled with the dry and warm summer ensured another early harvest. The marine layer had minimal influence, which is unusual for the Santa Maria Valley. What we didn't see early in the season was the light yields across most parts of the ranch and varieties. Pinot Noir had small berries and clusters, with no wings or shoulders to bolster cluster weights. Berry Set following Bloom was very good and we were happy with great quality going to the winery. Sparkling started the first week of August with our Pinot Meunier and we were into full swing the last week of the month through most of September. A heavy thunderstorm on September 3 was followed by more thunder, rain and hail on September 10. Exciting light show and rain amounts per hour left little sleep for vineyard and winery workers to follow.
